Please join us for the Annual Meeting of the Bennington County Regional Commission, to be held this year at Arlington's West Mountain Inn. The event affords an excellent opportunity to talk with fellow commissioners, local officials, and others we work with during the year. In addition to a delicious meal and presentation of the annual Bongartz Award for Excellence in Community Service, we'll hear from **Commissioner Michael Snyder** of the VT Department of Forests, Parks, and Recreation. Our natural landscape is fundamental to the character of the region, environmental health, our quality of life, and economic development, and Commissioner Snyder is at the forefront of many initiatives that directly affect these valuable resources.
