

Selected Energy Data

Dorset - Energy Burden: 11% (Moderate)

Population: 2,133

Median Household Income: \$74,857

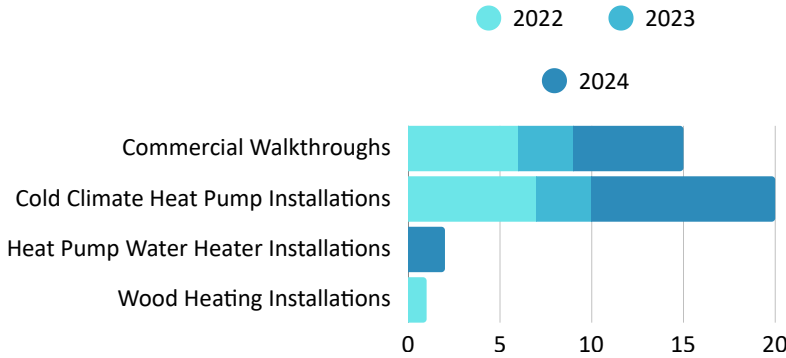

Annual Energy Use, Energy Savings & Efficiency Measures

Residential electricity demand in Dorset is relatively large, at 13,830,354 KWH in 2023, nearly twice commercial demand (4,650,398 KWH). Dorset's average residential energy usage was 9,809 KWH in 2023, much higher than the county average of 7,845 KWH. In 2023, energy efficiency measures saved Dorset \$78,320 and 362,754 lbs. CO2 equivalent emissions. As of 2023, Dorset's proportion of energy efficiency projects per residence is higher than that of Bennington County.
