

# Learn all about Heating your Home with Wood

at  
**Union Underground**

4928 Main Street  
Manchester Center

**Tuesday, December 10**  
**5:30 to 7:30 PM**

Learn about the benefits of heating your home with wood or wood pellets, as well as the [great rebates available through Efficiency Vermont](#) for the purchase of a cord wood stove, wood pellet stove, or wood pellet furnace or boiler. You also will be able to see the wood pellet boiler system used to heat the Union Underground building, and Emma Hanson, Wood Energy Coordinator with the Vermont Department of Forests, Parks, and Recreation will be on hand to discuss wood heating essentials and to answer all of your questions.

[Union Underground](#), Manchester's new gastropub, will be providing refreshments (free!) from their kitchen and drinks will be available for purchase. The event is sponsored by the Bennington County Regional Commission and Efficiency Vermont. Contact Jim Sullivan at the BCRC for more information: [jsullivan@bcrcvt.org](mailto:jsullivan@bcrcvt.org) or 442-0713.
